

Lamination is a process through which frizzy and brittle hair acquires structure, body and an extraordinary brightness with a mirror effect.

STEP 1

Before proceeding with the reconstruction and lamination protocol, comb the hair with a large brush, in order to regulate the hair. Wet the hair and apply the necessary quantity of Lux Lamina Alkaline Bath Repairing No.1. Massage the hair well, even strand by strand and leave on for 2/3 minutes, in order to favor the cleansing action of the product. Rinse and do the second wash. Rinse thoroughly, dry partially and proceed to the next step.

STEP 2

Pour the required amount of Repair Treatment N.2 (15/30ml) into a non-metallic bowl and add 15/30ml of hot water. Divide the hair into four blocks, distribute the product with a brush, taking care to saturate each lock. Manipulate with your fingers in order to facilitate the penetration and action of active substances, put on a thermal cap and go under the helmet or lamp for 15 minutes. Remove the cap, comb and distribute Mask N.3. Massage and comb. After 5/6 minutes of application, rinse quickly, pat the hair well and go to step 3.

STEP 3

Apply Lux Lamina Elisir N.4 for the final external sealing action, ensuring brilliance, strength and shine. On towel-dried hair, select small 2/3 cm strands and apply 5/6 doses of Elisir N.4 accurately and evenly on roots, lengths and ends.
Blow-dry your hair with a diffuser for curly hair; dry at 80% and then pass the plate (180 °-200°), 5/6 times per strand for smooth folds.

LAMINATION AND GLOSS

For this protocol, wash your hair thoroughly with Lux Lamina Alkaline Bath Repairing No.1. Rinse and do the second wash. Rinse well, pat dry. In a non-metallic bowl put 30ml of Struktura mask N.3 with 5/6 doses of Lux Lamina Elisir N.4. Comb and rinse quickly after 7/8 minutes of laying. Give 5/6 doses of Lux Lamina Elisir N.4, comb, blow dry the hair with a diffuser for curly hair; dry at 80% and then pass the plate (180°-200°), 5/6 times per strand for smooth folds.

A splendid effect, after having done the coloring, is obtained by using Mask N.3 and then Lux Lamina Elisir N.4 before styling. Lux Lamina Elisir N.4 is excellent for maintenance at home, given together with Nutry Keratin Bath and Nutry Keratin Mask Pack. Use the necessary amount of product on damp or dry hair, taking care to distribute the product evenly throughout the hair. To obtain the mirror effect, apply the product and proceed to the desired fold.
